PROFILE

Passionate about software development, I have specialized in **iOS development for more than 10 years**, gaining strong expertise in Apple technologies and languages. Self-taught in mobile technologies and always eager to step outside my comfort zone, my career has also led me to develop **Android business applications** (public sector) and **Kotlin Multiplatform** solutions. I particularly enjoy **teamwork, sharing my experience, and mentoring others**.

EDUCATION

- **2015 – Bachelor's Degree (Bac+4) Software Designer & Developer** at ENI Computer Science School
- **2006 – Project Manager – Client/Server Development Specialist** at ENI Computer Science School
- **2001 – Higher Technician Degree (Bac+2) in Information Systems** at AFPA – Brive-la-Gaillarde

TECHNICAL SKILLS

- **Languages:** Swift, Objective-C, Java, Kotlin
- **Mobile:** iOS, Android, Kotlin Multiplatform
- **UI:** SwiftUI, UIKit
- **Architecture & Methods:** MVVM, Agile / Scrum
- **Backend / Tools:** Server-side development, Git, CI/CD

LANGUAGES

- English: Professional proficiency

FEE

550€ per day
